The Auglaize County Historical Society is collaborating with the Friends of the Wapakoneta Library to host a national traveling exhibit, “The Progressive Era: Creating Modern America, 1900-1917,” which will be installed at the Wapakoneta Library, Perry Street, from February 9 through March 9.

This exhibit includes letters, cartoons, pictures, and broadsides that illustrate America’s transformation into a modern, industrial society. During the Progressive Era (1900–1917) a broad-ranging reform movement worked to make government more democratic, to lessen the effects of industrialization, and to regulate business.

“The Progressive Era” comes to us from the Gilder Lehman Institute, New York City. Founded in 1994, the Gilder Lehman Institute of American History is a nonprofit organization devoted to the improvement of history education. The Institute has developed an array of programs for schools, teachers, and students that now operate in all fifty states, including a website that features more than 60,000 unique historical documents in the Gilder Lehman Collection. Each year the Institute offers support and resources to tens of thousands of teachers, and through them enhances the education of more than a million students. The Institute’s programs have been recognized by awards from the White House, the National Endowment for the Humanities, and the Organization of American Historians.

About Dr. Angel’s presentation:
The Progressive Era changed the paradigm for how Americans view government. Considerable technological, economic, social and cultural change had occurred in the latter third of the 19th century. By the 1890s events had become so chaotic, that educated elites began engaging what historian Robert Wiebe has called ‘A Search for Order.’ The process included creating a more active and interventionist government—especially at the local level—that changed the role of government in the U.S. The Progressive Era, therefore, was really was somewhat conservative in efforts by political elites to assert more control over social and economic problems that had emerged by the close of the 19th century. We are still living with the effects of Progressive reform today.

William D. Angel, Jr., holds bachelor’s and master’s degrees from The Ohio State University in education and political science, respectively. He also holds a doctorate in political science from the University of Texas. He served as an associate professor in the Department of Political Science at The Ohio State University at Lima from 1978 through 2012. He has since held the title of Associate Professor emeritus from the institution.

Dr. Angels’ works in progress include “A City in Revolt: The Political Transformation of Cleveland, 1928-1948” and “The Death of Polonius: Frank Lausche, Ohio, and the Politics of Race, 1941-1968.’ Among his many community affiliations, Dr. Angel has served as a member of the board of trustees for the St. Marys Community Public Library since 2007, and chaired Citizens for the Library, the PAC that organized the successful library levy-renewal campaign in 2015. He is a member of the Wapakoneta Waves Summer Swim Board, for which he serves as president.

**A Cold Case of Yeggs**

by John Carnes, Curator of Collections,
The Allen County Museum

Mr. Carnes’ presentation tells the story of his own great-grandfather’s murder on November 6, 1901. John F. Shively owned a saloon and hotel in Kossuth. A group of three yeggs rode from Lima to Kossuth in a stolen buggy, shot Shively, and escaped first to St. Marys, and then back to Lima. They, with others, proceeded to commit other crimes (interspersed with terms in the Ohio Penitentiary) in Allen and Auglaize counties, as well as in Southern Ohio.

**Lunch and Learn with Ken Burns’ Prohibition**
Thursday, February 18, Noon
Wapakoneta Library Basement

The question of Prohibition had gained strong momentum by the first decade of the 20th century. The issue was one of the most controversial in the history of the country, rivaled only by slavery a century before. However, the level of Americans’ dedication to the enactment of Prohibition and the degree in which alcohol would be prohibited varied greatly among the population, depending upon geography, ethnicity, religion, and even economic status.

Bring a brown bag lunch—we’ll supply the drinks!—as we watch and discuss a segment of the fascinating documentary Prohibition and see how the subject relates to the Progressive Era and our exhibit.
